“ *As a brother in law to me Daryl just showed me that he was a man of his word but more importantly as an uncle to my children he was a teacher. He would teach them about things you find in the woods that nature put there and how a man can survive in the woods by eating what God provided. I also remember him teaching all of the kids how to make a “P” shooter and a potato gun. Rest In Peace Daryl. You will be missed but never forgotten!*
