“ (From Sandy Owen Floyd)

Patty and I were friends in High School in Riviera Beach, FL.

After graduation we didn't see each other for a couple of years. When I had my first baby and they wheeled me to my bed, I turned to see that Patty was my roommate! She had just had her second little boy!!

We continued to be close friends over the next 6 years. She added a daughter and a son to her family and we shared many happy memories.

Unfortunately, I moved out of Florida eventually, but always remembered her bright personality, clever ideas for handling her 4 small children, and her love for her mother. I was so sad to learn of her passing. God Bless her family.
